To whom it may concern:

I have been using AK Book-keeping for 3 years now, and due to the dedication and superior service the team have supplied I have not thought twice about using anyone else. The team are able to supply and maintain a friendly confidential service, including my payroll, book-keeping with monthly reports, and accounts management of my customers. AK Book-keeping has an edge above competitors that I am continually grateful for inasmuch that they take an active interest in my companies' wellbeing, with regular contact to ensure my awareness of any fiscal problems at hand or to occur. The service is an absolute convenience, believed to be down to the experience, dedication and understanding of the Subway franchise and business model. Trust is key in any industry, and AK book-keeping have proved this over the last 3 years with access to company funds in order to pay wages and bill payments. It's nice to work with a team that has loyalty within, resulting in familiar faces to work with, giving the service that personalised touch. A great thanks to Albert and Joyce for their support and work over the years, I hate to think of my business without them!
