Dear Albert

We are coming to the end of our financial year and a year since we contracted AK Bookkeeping to manage our bookkeeping, payroll and management accounts. You and your staff very successfully helped to sort out the problems left from our previous bookkeeper and established good procedures and practises for my business to follow.

When I look at the situation we were in this time last year and compare it to what we have now it's a wonder how we managed to achieve what we did.

We now have complete confidence in our financial accounts so I am looking forward to an easy year end. I can happily say that we have monthly management accounts to supply the tools that enable us to not only run the current business successfully but allow us to confidently look at expanding and developing as well.

I would just like to take this opportunity to thank you and your team for the excellent working relationship that has been established.

Yours sincerely

Brian M Driscoll  
Director
