

Print **4** Business

Testimonial for AK Book-Keeping and Payroll Services Limited - July 2009

We have been using the services of AK Book-Keeping for the last 4/5 years and during this period they have been very reliable and trustworthy. Once a month an account manager visits our premises and works alongside existing staff to produce a monthly Profit and Loss using the latest Sage software. I have always found them to be professional, friendly and understanding to our requirements. The monthly P&L report helps in formulating the future strategy of the business and allows us to plan better and make informed decisions.

I would not hesitate in recommending AK Book-Keeping to other organisations.
