TO WHOM IT MAY CONCERN

I have been using Albert Kirkman and his team at AK Bookkeeping for many years now and consider them critical to the success of our operations. Albert is a trusted member of our financial advisory team and we have adapted and grown our business relationship as our business has developed.

We use them for payroll, bookkeeping and administration services and have at all times found them reliable, efficient, friendly and responsive.

In particular, Albert has extensive experience of the Subway franchisee financial model and as a result really brings real added value to my business on financial matters unachievable elsewhere. They have the ability to take on new business and absorb and respond to ad-hoc work without issue.

Most modern business can no longer stick to the 9-5, 5 days a week model of the past and in this we need professionals that understand our needs in a changing business environment. To this end I have always found Albert responsive, understanding of change and willing to help no matter what the question or when it is asked.

Albert's team have saved me a considerable amount of money, through diligent attention to detail, ownership and a genuine desire to see our business succeed.

Please do not hesitate to contact me if you need any further information.

Yours sincerely

Mark Greening
Director
